MADE IN GERMANY

MADE IN GERMANY

Sound Butler® – *pure music pleasure*

Sound Butler® from Phoneon® is a high-performance, aesthetic acoustic element which is effective even in the bass range. The first of its kind to eliminate room modes, it is a true acoustical innovation.

Sound Butler satisfies the expectations of even our most demanding customers:

- Astoundingly effective:** Sound Butler brings the concert hall into the home. Perfect high pitches, rich bass, uncompromised music. A totally new dimension.
- Immaculately designed:** Sound Butlers are manufactured in precision top quality - "Made in Germany". Its elegance and wealth of material and colour choices are unrivalled.
- Flexible in use:** The high-performance Sound Butler is extremely versatile and mobile, fitting perfectly into virtually every room.

A team of acoustic experts brings passion and high aspirations to the task of producing tailor-made acoustic solutions for satisfied customers.

Phoneon offers a range of customized versions, handcrafted with particular care and attention to detail. Special, made-to-order surface finishes include piano lacquer, solid wood, leather, photographic or art print.

For a sound experience that delights the senses, and music pleasure that leaves nothing to be desired.
